

From Warrah

We are very excited about our upcoming Foundations of Curative Education course commencing in April 2013. With 8 modules, each of 4 days, in school term breaks, we expect to complete the course in Sept 2015.

Not held for many years it is a chance to reaffirm our commitment and understanding to those special students we all work with. We hope many of our colleagues will join us in our studies - Steiner teachers, curative educators, therapists, special needs educators, learning support teachers - all who feel the deep calling of our work.

The course has been designed to develop and share the knowledge & skills of people working in Steiner remedial, therapeutic and curative spheres. To this end, Barbara Baldwin will lead us in our learning. She is a highly experienced Curative Educator & Therapist who has developed and delivered Curative Courses all over the world.

The course will be held in the beautiful bushland setting of Warrah Special School, the only Curative School in Australia. We will accept registrations for single modules, but urge you to consider committing to the whole course to really gain the benefits.

We warmly invite you to join us and welcome your enquiry. Please contact the Course Administrator Birgit Eaton 02 96512411 or beaton@warrah.org for registration. If you wish to discuss your needs and interests, please contact me, or Warrah CEO Georgina Michaelis on 02 96512411.

Bruce Thurgood, Principal
Warrah Special School
